Provisions of Section 11-1911 off the Fish and Wildlife Law are as follows:

"11-1911. Farm fish ponds. 1. "Farm fish pond" means a body of water impounded by a dam, of not more

than ten acres of water surface when full, lying wholly within the boundaries of privately owned or leased lands. It does not include any pond used in connection with any private camp, boarding house, hotel or other establishment catering to the public.

2. The Department may issue to the owner or lessee of a farm fish pond a license, effective for a period of five years, entitling the holder to stock and manage such fish pond for the production of fish. The Department shall fix the terms of each license and may include therein the methods of control to be used in the manner of taking and type, size and mesh of gear to be used in taking fish. The Department may, for cause, revoke or suspend any license issued pursuant to this section.
3. No person shall release any species of fish into a farm fish pond unless permission to do so is first obtained from the Department.
4. A licensee, any member of his immediate family, and any person actually employed by him in the cultivation of his farm or the management of the licenced pond may without license issued under title 7 of the Fish and Wildlife Law, take fish of any size, in any number, at any time, in any manner permitted by the Department
5. The holder of a fishing, six-day fishing or combined hunting and fishing license, or a person entitled to exercise the privileges of such a license, may with the permission of the licensee, take fish by angling from the licensed pond provided he complies with the provisions of title 13 of the Fish and Wildlife Law, with respect to open seasons, minimum size limits and daily and seasonal possession limits.
  - A.
